

Name	Evelyn Chávez
School/District	Dual Language Education of New Mexico
Email	evelyn@dlenm.org
Grade Level	2nd-3rd
Content Area	Math
Topic/unit/core selection	telling time, elapsed time
Chant Title and Author	Telling Time is Grand! by Evelyn Chávez with support from AI

I'm a mathematician and I'm here to say,
 I can tell time throughout the day.
 I know there are sixty minutes in an hour,
 I can read a clock. I have the power.

Seconds, minutes, and hours too,
 Doing the telling time, bugaloo!

The hour hand is short and moves slow and steady,
 The minute hand moves fast, so make sure you're ready.
 Sometimes I'll count every minute I can,
 Or count five minutes at a time; it's grand!

Seconds, minutes, and hours too,
 Doing the telling time bugaloo!

Seven o'clock, half past the hour, or a quarter to three,
 There are different ways to tell the time, as you can see.
 It's important to know how long events will last,
 Learning about elapsed time is a blast.

Seconds, minutes, and hours too,
 Doing the telling time bugaloo!
