<b>Topic/unit/core selection</b>	Counting
<b>Chant Title and Author</b>	Mathematician Bugaloo
<b>Copy and Paste Chant Here</b>	Mathematician Bugaloo By Jennifer Lisle

I'm a mathematician and I'm here to say,  
I study numbers every day.  
Counting and adding is so much fun,  
Working with numbers is for everyone!

Count, subitize, and add, too  
Doing the Mathematician BUGALOO!

When you count you have to take care,  
Make sure that you include all that's there.  
Touch each item one by one,  
When you count them all then you're all done!

Count, subitize, and add, too  
Doing the Mathematician BUGALOO!

Counting groups is another way,  
Subitize amounts and then go play.  
Two plus two will always equal four,  
Two groups of two students are out the door!

Count, subitize, and add, too  
Doing the Mathematician BUGALOO!
