

Name	Marie LaCassa
School/District	Orange Unified School District
Email	ahelsper@orangeusd.org
Grade Level	Secondary
Content Area	Math
Topic/unit/core selection	Math, Linear Equations, slope
Chant Title and Author	Graphing Bugaloo by Marie LaCassa
Copy and Paste Chant Here	Graphing Bugaloo! By Marie LaCassa

I'm a grapher and I'm here to say,
I use slope intercept form everyday.
Sometimes I identify m as the slope,
Sometimes I identify b as the y-intercept,
But most of all I know graphing is dope.

Slope, y-intercept, x and y, too,
Doing the graphing Bugaloo!

The next thing I do when graphing a line,
Begin at the y-intercept any time.
Use the vertical line to find your spot,
Now all you do is draw a dot.

Slope, y-intercept, x and y, too,
Doing the graphing Bugaloo!

M is the slope, rise over run,
Move from the y-intercept, you're almost done.
At least three points you should plot,
Coordinate after coordinate, it's not a lot.

Slope, y-intercept, x and y, too,
Doing the graphing Bugaloo!

The very last step, you're almost there,
And then you'll have a line for the world to share.
Connect all the points with one straight line,
Put arrows on both ends, it's time to shine.

Slope, y-intercept, x and y too,
Doing the graphing Bugaloo!
